Fig.6B

A line graph showing the relationship between the moved distance of the photosensitive member (mm) on the x-axis and the angle θ_{H2} (°) on the y-axis. The x-axis ranges from 0 to 150 mm with major ticks every 50 units. The y-axis ranges from 0 to 16 degrees with major ticks every 2 units. Four data points are plotted, showing a linear increase in angle with distance.

Moved Distance of Photosensitive Member (mm)	θ_{H2} (°)
0	9.2
50	11.5
100	13.3
150	15.0
